

The Furniture Group was commissioned to design, manufacture and install two new reception desks at Chrisp Street Practice, Tower Hamlets.

The reception desks were designed in consultation with the practice GPs and reception staff.

They are both accessible to wheelchair users.

Constructed of solid oak veneer tops with formica fascia and brushed aluminium kick plates, the desks house shelving and storage units and cable management systems for the computers and telephones.

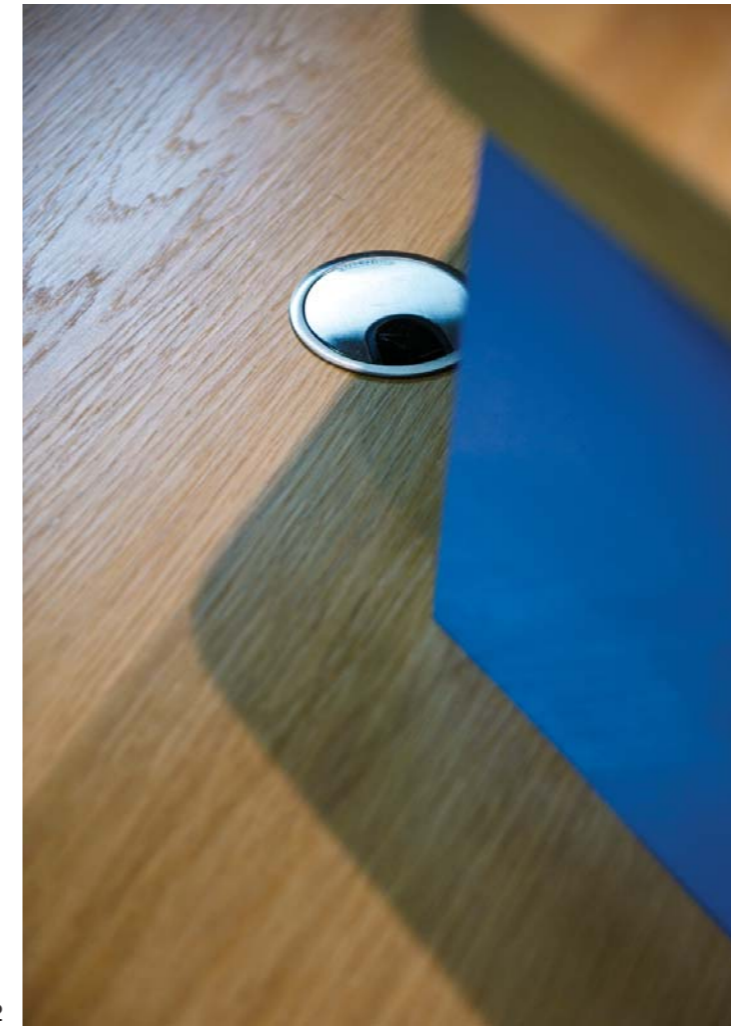

1. Reception area for Chrisp Street Practice is now compliant with DDA regulations.
2. Solid oak veneer surface.
3. Detail: cable outlet
4. Front reception desk
5. Side reception desk showing lowered section and access door.
