GP practices are now required to comply with the Disability Discrimination Act and to have reception areas that are accessible to wheelchair users. The Furniture Group works in consultation with GP practices to provide a range of solutions to design custom-made reception desks or low level counters that are compliant with DDA regulations and that meet the needs of reception staff. We work to a variety of budgets.

The larger reception desks can house shelving and storage units and cable management systems for the computers and telephones.

1. *DDA compliant reception desk with toughened glass screen*
2. *Low level counter: a cost effective solution*
3. *Solid oak veneer surface.*
4. *Reception area for Chrisp Street Practice is now compliant with DDA regulations.*
5. *Side reception desk showing lowered section and access door.*
